**Final Project Design Document**

Michelle Reed

**Purpose:**
The purpose of this web page is to build my ePortfolio. The ePortfolio will serve as a collection of my work created during my graduate studies at The University of Akron (UA) in the Instructional Technologies master's program to display my knowledge of the coursework.

**Needs Assessment:**
I followed the guidelines set forth by the UA College of Education (UACOE), utilizing the *IT Master Program: ePortfolio Instructions*, *Alignment document for ePortfolio Course Artifacts and Field Experience*, and *Capstone ePortfolio Rubric*.

**Audience:**
The intended audience will be UA faculty, my advisor, potential employers, and future students that may need to follow the example for their ePortfolio.

**Rationale for organization:**
I would like to use the paging list above to showcase my talents in those categories. I feel these are the main areas of interest that UA faculty as well as employers will be focusing on.  I can highlight my work in these areas and can add artifacts from my real world experience as well.

**Media, acquisition or development, and rationale for using:**
I will be using video clips I have/will create, picture and .pdf examples of my work, audio clips I have/will create, and interactive learning objects I have/will create.

**Color scheme and rationale:**
I would like to utilize the following color pallet. I feel it will compliment my personality as well as be appealing and easy to look at.
